

INTRODUCTION

\$THC AIMS TO FIGHT THE RISING COST OF FOOD

Born out of the success of other charity based projects, Takeout Hunger Club took inspiration from one of the oldest crypto stories... when 2 pizzas were bought for 10,000 BTC! \$THC aims to fight the rising costs of food, all while buying you your favourite takeout!

We intend to help support hunger charities and foodbanks around the world, working with our community towards a hunger free future.

SOCIAL COINS

WHY?

Social coins have become synonymous with the crypto industry in 2022, with some of the first movers achieving market caps in the 10s of millions.

They have managed to enact real change, donating hundreds of thousands, if not millions to their chosen recipients.

\$THC wants to follow in the footsteps of those before us and reach those around the world who struggle with food poverty every day, all while supporting our loyal holders.

'FAAS'

FOOD AS A SERVICE

At \$THC we are offering holders a unique opportunity to experience immediate real world utility with the purchase of your tokens... we're calling it 'Food as a Service'.

Purchase \$THC to gain access to the ability to claim back on your food delivery.

Viral Marketing

Show us how much you're enjoying your food on social media! We gain exposure, you get to eat!

Donate to charity

Through the taxes, buys and sells of \$THC allow us to make donations to hunger charities and foodbanks.

CONTRACT

0xde4c7aaf2604da5857b69b0580f5d8cf95d39223

TOKENOMICS

CONTRACT RENOUNCED

For the full safety of the project's longevity, we opted to fully renounce our contract.

GNOSIS MULTISIG WALLET

To further ensure the safety of projects funds, we operate a multisig wallet with 5 approvers, requiring 3 confirmations to process transactions.

7% BUY TAX

3% Liquidity 4% Marketing & Charity

11% SELL TAX

3% Liquidity 8% Marketing & Charity

SUPPLY

1,000,000,000 Total Supply 500,000,000 Burned 500,000,000 Circulating

'STEAKING'

STAKING... SORT OF?

Staking is a popular utility in the crypto space whereby the user 'locks up' their token in return for some sort of gain. This can be in the form of 'x%' return for 'x' length of lockup time. We're doing it a little bit differently...

Hold \$THC

After buying, hold the min. no. of \$THC and you are now 'steaking'. If you drop below the threshold, you can lose access.

Which tier?

Depending on the amount of \$THC you hold, you will fall into one of our tiers, increase your bag to access more utility!

Claim your food!

Dependant on your tier, submit your claim, and enjoy food on us!

TIER LIST

TIER 1

\$THC 350,000

2,499,999

\$20 /WEEK

(Can only be used on takeout.)

TERMS AND CONDITIONS

- Marketing and/or call to actions to buy or sell \$THC tokens is NOT FINANCIAL ADVISE, purchase of the token is at the holders own discretion. The 'THC' team assumes no responsibility for price action.
- Minimum amount of tokens are required, at all times, in a single wallet, to take advantage of the claims.
- Value of claims are refunded based on the tier of tokens you hold.
- Depending on the number of tokens you hold, your tier will change. If you sell, and drop below the lowest tier, you will lose your right to claim.
- Claims are refunded on a weekly basis, usually a Sunday or Monday. Refunds may occur earlier, dependant on the 'THC' teams' discretion.

- To ensure the longevity of the project, the team may decide to halt refunds at any time. This will always be communicated as early as possible, and will only happen if completely necessary.
- By trading or acquiring \$THC you acknowledge that this is not an investment into any such company, partnership or any such centralised entity. 'Takeout Hunger Club' (THC) is an entirely open source project whereby anyone is able to volunteer and contribute. As this project is led by the community, there is nobody solely responsible for the success or failure of 'THC'. The 'THC' token has no physical offices or any employees. The network is coded, designed, and run by volunteers from all around the globe, and anyone is welcome to contribute.
